MAKING IT EASY TO SUPPORT GOOD JOBS  
LOS ANGELES | SAN FRANCISCO | WASHINGTON, D.C. | PHILADELPHIA | NEW YORK

There's an observance for pretty much every occasion. This year, the July observance of National Anti-Boredom Month comes at a particularly difficult time since we've all been stuck indoors since March. Because we all need to be safe and practice social distancing, activities like cooking, exercise and family-friendly board games are some tried and true ways to help pass the time until things get better. If you're shopping for diversions, here are some brands made by companies who treat their workers fairly and give them a voice on the job. Stay safe, stay engaged and let's all build a stronger America.
